

SASKWASTEREDUCTION.CA

OUR MISSION

As an advocate for community and environment, SWRC will lead in addressing the underlying causes of waste by identifying opportunities, creating connections and promoting solutions.

OUR VALUES

- ◆ Respectfulness—For Environment, Partners, and Relationships
- ◆ Competence—Knowledge, Understanding, and Skill
- ◆ Effectiveness—To Make a Positive Difference
- ◆ Initiative—Leadership

OUR MEMBERS

SWRC members include individuals, businesses, municipalities and other groups who share a common concern about waste issues.

In addition to voting privileges at general meetings, members receive our bi-monthly newsletter, *Waste Watch*, lots of useful waste reduction information, and reduced admission fees to our events. Your SWRC membership also gives you access to our research services. Tell us what you are trying to recycle, and we will do a half hour of research to find out the best options available to you - if we don't know already.

Sustaining Members are corporate entities that contribute \$10,000 or more annually to the operation of the SWRC. In return, SWRC provides recognition and services which meet both our mandate and a Sustaining Member's needs. Services to date have included project management, research, promotion opportunities, and program planning.

Supporting Members pay \$1000 per year and receive special recognition in our newsletter and Annual report.

OUR ACTIVITIES

- ◆ Conferences and workshop
- ◆ An on-line listing of all Saskatchewan recycling programs
- ◆ A website with resources on a wide variety of waste topics
- ◆ The Sask. Waste Minimization Awards
- ◆ Composting promotion and training
- ◆ Participation on stakeholder committees
- ◆ Publications and response to inquiries
- ◆ Waste Reduction Week in Canada

WHAT ARE THE BENEFITS OF REDUCING WASTE?

- ◆ Municipalities pay less for waste management
- ◆ Businesses operate more efficiently
- ◆ Reusing and recycling stimulate economic activity
- ◆ Householders save money by using fewer resources
- ◆ Fewer resources used means less contribution to global warming and climate change
- ◆ The environment is protected from damage caused by landfills
- ◆ Fewer raw materials are used

WHAT YOU CAN DO

- ◆ Get involved – become a member of the Saskatchewan Waste Reduction Council
- ◆ Encourage your municipality to start a waste minimization program
- ◆ Reduce, Reuse, Recycle, Compost
- ◆ Set up a recycling and/or composting program at your workplace
