Diverting Waste in the City: Curbside Swap Program

Michael works within the Sustainability Division of the City of Saskatoon. The City has a waste diversion goal of 70% by 2023 and is working to develop various waste diversion programs. The curbside swap program was created to effectively allow gently used items to be rehomed rather than discarded at the landfill to take up non-essential room. The program gives new life to reusable items and builds a sense of community.

SASKATOON
**CURBSIDE
SWAP**

Want free stuff?
Got stuff to
give away?

Swap it!

*We encourage individuals and
neighbourhoods to organize
their own Curbside Swap.*
