

# SDGs in our Municipalities

Aditi Garg  
g.a@usask.ca

May 2024

*Nākatēyihtamowin* - protecting and honouring the wellness of all humanity and creation by taking care of the relationship with which we've been entrusted — with the land, with the air and water, with our students, colleagues, and neighbours — guided by mindfulness, respect, and reverence.

*Ahimsa* – do no harm, care for life

Norms for  
the group

What do I expect  
from others?

What do I expect  
of myself?

# Our Norms

## What we expect of others

- Share the time/spotlight
- Generosity
- Curiosity
- Respect
- Kind to your self
- Extend kindness
- Listen openly – acknowledge hearing
- Consider all ideas
- Self-confidence - Speak Up! (or not)
- Open to correction
- Be honest
- Take care of your own physical and mental needs.
- Less than perfect ;)

## What we expect of ourselves

- Be present
- Make sure everyone has the opportunity to share – engage those who haven't
- Avoid interrupting
- Ask for clarification
- Challenge the idea not the person (caring)
- Engage with the group in good faith, walking in the same direction
- Encourage each other
- Positive vibes
- Caffeine (or not)

# Our Goals

- Describe the 17 Sustainable Development Goals (SDGs)
- Select the SDG that connects with one's own personal, professional (disciplinary), and community contexts
- Evaluate relevance and interconnections between SDGs
- Design a strategy for advancing the SDGs in their context
- Build relations with others seeking to advance the SDGs
- Consider organizing your own Training of Multipliers!

# 5P Model

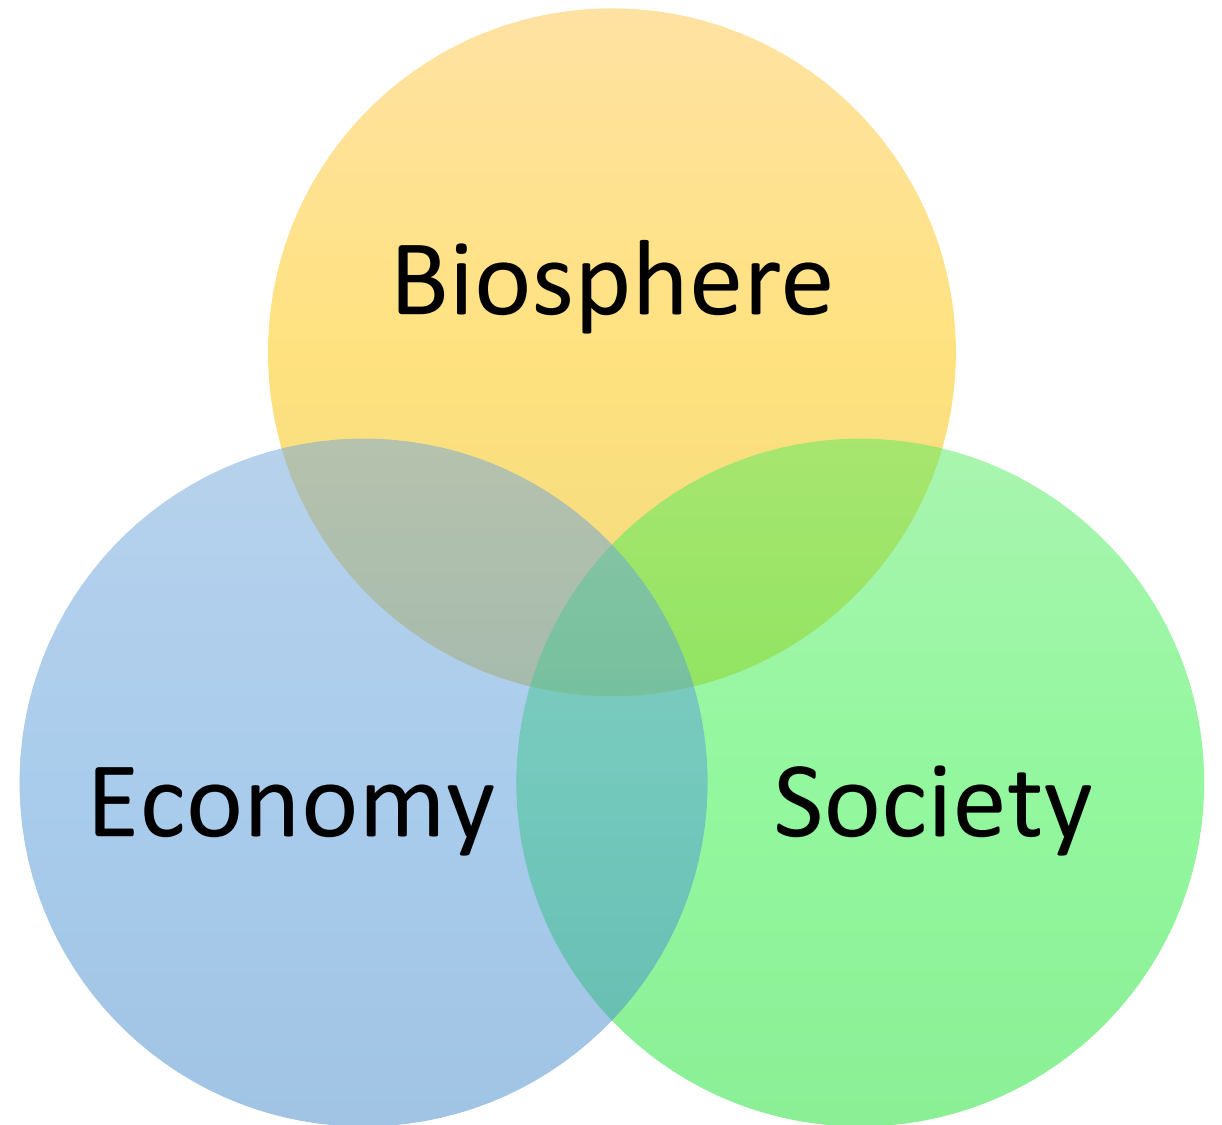

Which is most important to you personally?

<https://sdg.gdrc.org/post/128479353317/the-five-key-elements-5-ps-that-led-to-the>

# Sustainable Development Domains

What does your discipline or profession lend itself towards?

# Wedding Cake Model

## OBJECTIVES

The head icon indicates the mindset or disposition required to advance the SDGs. When we do this well, we know 'what' to do.

The heart icon indicates the heart set or values required to embody the SDGs. This is the 'why'. This can be individual or collective.

The hand icon indicates the skillset and abilities required to advance the SDGs. When we develop these, we know 'how' to achieve the what and why.

A simple approach to prioritising work.

# Backwards Design

# Interpreting a goal

## Goal

11 Make cities and human settlements inclusive, safe, resilient and sustainable.

## Target

11.6 By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management.

## Indicator

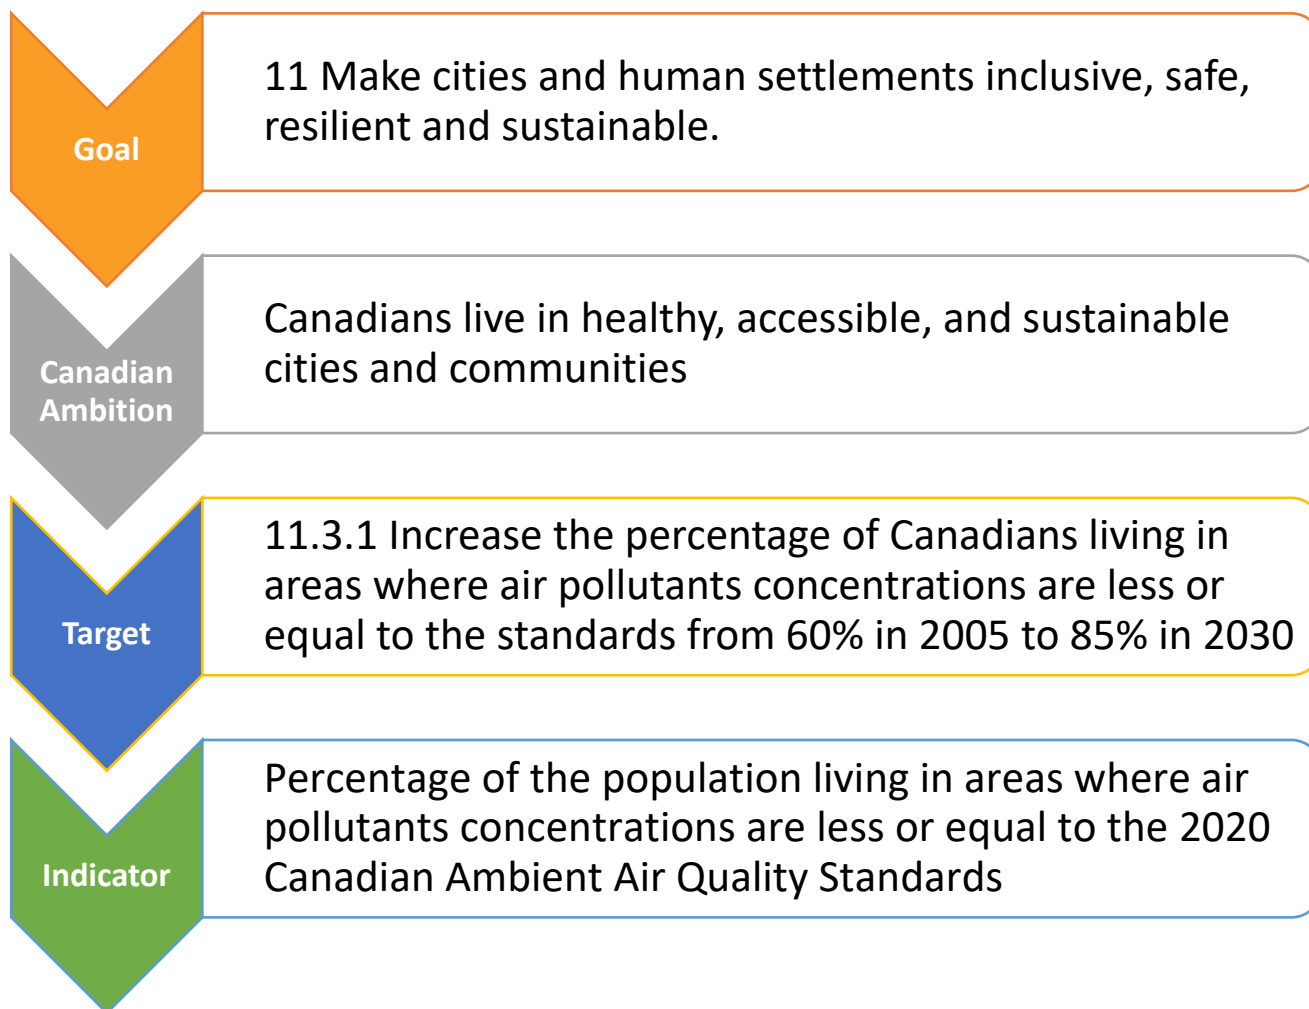

11.6.1 Proportion of municipal solid waste collected and managed in controlled facilities out of total municipal waste generated, by cities

## **SDG 11: Sustainable Cities and Communities**

•**Canadian Ambition:** To ensure Canadians have access to quality housing and live in healthy, accessible, and sustainable cities and communities

### •**Targets:**

- Reduce the number of households in core housing need.
- Reduce chronic homelessness by at least 50% by 2027 to 2028.
- Have 85% of Canadians live in areas where air pollutant concentrations are less or equal to the standards.
- Increase the percentage of commuters adopting shared or active transportation to 22% by 2030<sup>1</sup>.

## **SDG 12: Responsible Consumption and Production**

•**Canadian Ambition:** To promote resource and energy efficiency, sustainable infrastructure, and provide access to basic services, green and decent jobs, and a better quality of life for all.

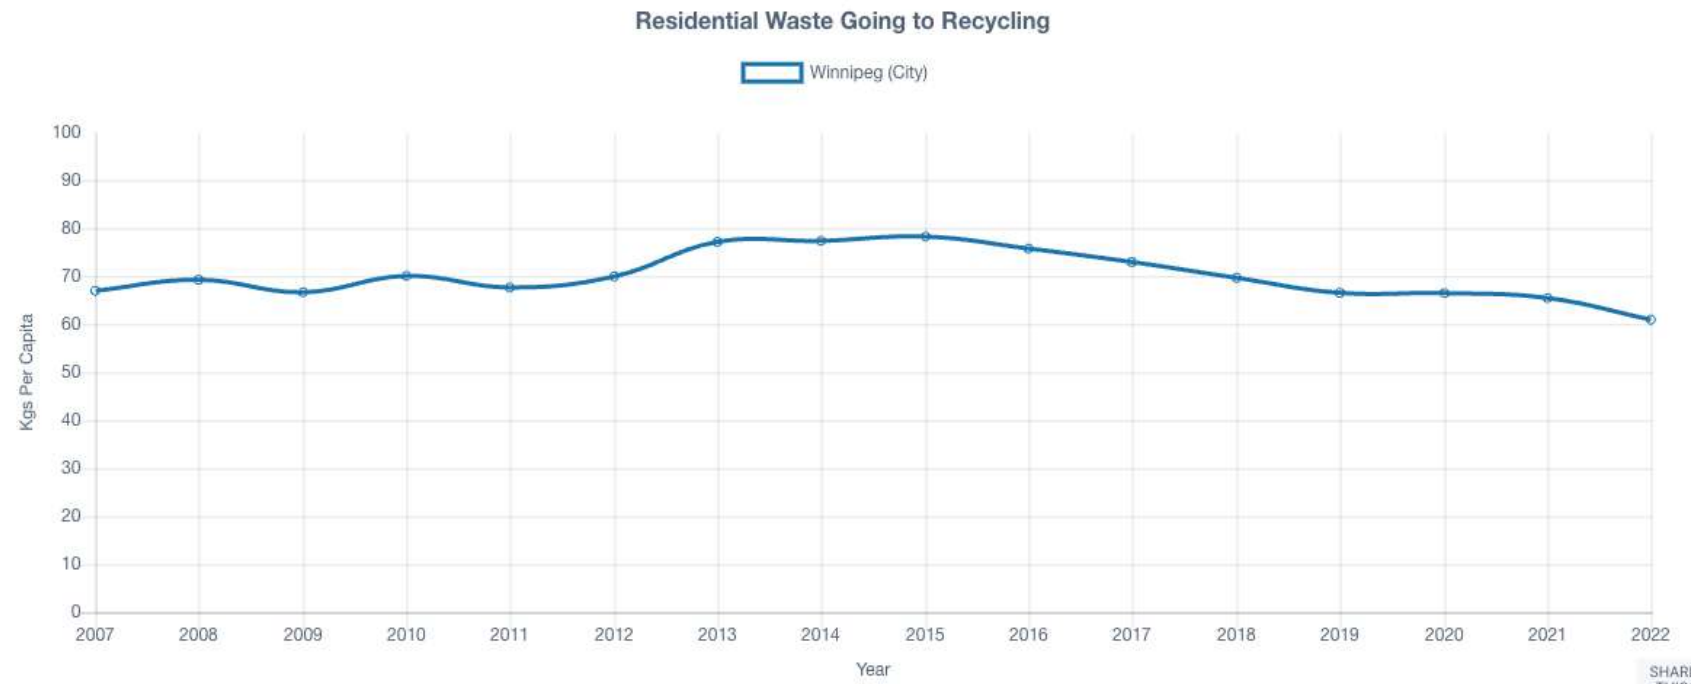

### •**Targets:**

- Implement the 10-Year Framework of Programmes on Sustainable Consumption and Production Patterns.
- Achieve the sustainable management and efficient use of natural resources.
- Halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains

# MyPeg

## Residential Waste Going to Recycling

Waste going to recycling measures the amount of material that is diverted to a recycling facility. The graph shows the average number of kgs per capita within a year.
